# Jeans That Fit

1. Waist—measure at your navel
2. Hip—fullest part of your hips and rear, roughly 9cm from crotch

## Fitting Guidelines for Tre bliss and Bazz by Bazz Jeans

### Silky Summer Light Weight (LW) Long Rain (LR) and Winter Curvy (HW)

All measurements should be taken with a soft tape measure .

**Tre bliss Jeans** do not shrink or stay in a stretched shape. Don't buy too tight hoping they will stretch to fit you.

The highly retentive quality of our denim makes them stretch every time to comfortably fit your curves.

**Tre bliss Jeans** forgive but NEVER forget.... they will always retain their original shape.

1. Measure your waist— right on your navel.

2. Measure your hips at your fullest part of your hips and rear- roughly 9cm from crotch.

**Look at the size chart to get your Tre bliss size !**
